

## THERMOSTATIC POWER SHOWER 1500

### Product Specification

<b>Product Code:</b>	HY POWSHX MC / HY POWSHX W
<b>Finish:</b>	Matt Chrome / White
<b>Product Type:</b>	Contemporary
<b>Operation:</b>	Push button start/stop (single rotary dial for temperature adjustment)
<b>Power ratings:</b>	230v AC@50Hz/3Amp/150W
<b>Constructions:</b>	Plastic (ABS) casing
<b>Supply:</b>	Low pressure gravity systems only
<b>Inlet Connections:</b>	15mm push-fit
<b>Outlet Connection:</b>	G ½"
<b>Water Pressure:</b>	Min. 0.1 bar, Max. 1.0 bar

### Additional Information

- Eco button for deactivation of boost.
- 15 minute motor rating (unit will need to cool down if thermal cut out trips).
- Thermostatic shower with built in electric pump drawing water from gravity supplies .
- Thermostatic cartridge maintains showering temperature to +/- 1°C by compensating for changes in the incoming water temperature and pressure providing a stable outlet temperature.
- Automatic shut off in the event of hot or cold water supply failure, thus reducing the risk of injury.
- On/off operated by push button allowing temperature setting to remain the same after each use.
- Pipe access is from the right side, fed from either top, bottom or rear of the unit and the fitting are push-fit.
- Supplied with 1.5m hose, adjustable riser kit and 3 mode handset with rub clean nozzles. The riser rail has a built in soap tray, integral hose retainer and spirit level to assist in fitting and as it fits flush against the wall any previous fixing holes can be concealed.
- Under no circumstances should the power shower be connected to mains water supply.

**Technical Advice:** For further information please call 0844 7016273 or email [customer@bristan.com](mailto:customer@bristan.com).
